PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer with practical experience in building, deploying, and maintaining production-grade web applications. Currently working at Leeoweb Group while pursuing BCA from SGN Khalsa PG College, Sri Ganganagar. Skilled in PHP, Laravel, React.js, JavaScript, and MySQL. Experienced in complete project lifecycle — from database design to server deployment. Passionate about writing efficient, maintainable code and delivering real value to clients.

WORK EXPERIENCE

Full-Stack Web Developer

Leeoweb Group · May 2026 – Present · Abohar, Punjab

Leeoweb Group is a web design and IT solutions company based in Abohar, Punjab, providing digital services to businesses across India.

- Developing and maintaining client-facing web applications using PHP, Laravel, and React.js.
- Designing and optimizing MySQL databases — schema design, query optimization, relationships.
- Building responsive, mobile-first UI using Bootstrap 5 and vanilla JavaScript.
- Deploying applications to live servers via cPanel and AaPanel — handling PHP extensions, Composer, and npm builds.
- Collaborating directly with clients to understand requirements and translate them into working software.
- Implementing role-based access control systems (Admin, Staff, User panels).

Web Development Trainee (Internship)

L2CL CDC Coaching · 2024 – 2025 · Sri Ganganagar, Rajasthan

- Completed intensive practical training in full-stack web development.
- Built real projects using HTML, CSS, JavaScript, PHP, Laravel, React.js, and MySQL.
- Learned industry-standard practices: MVC architecture, REST APIs, Git version control.
- Developed strong problem-solving and debugging skills through hands-on project work.

PROJECTS

Legal Services Platform — businesslawyer.co.in

Laravel · React.js · MySQL · Bootstrap · cPanel · Client Project (Confidential)

- Fully functional legal services web application with three separate panels — Admin, Staff, and User.
- Admin panel: complete user and case management, revenue tracking, staff assignment.
- Staff panel: case handling, document upload, status updates with real-time notifications.
- User panel: service booking, payment integration, case tracking and history.
- Implemented shareable payment link functionality for client billing.
- Deployed React frontend and Laravel backend on live server using AaPanel — resolved PHP extension issues (fileinfo, proc_open), Composer conflicts, and npm build setup.
- Built role-based access control with Laravel middleware and React routing.

Admin Management Panel

PHP · Bootstrap · MySQL · Laragon · HeidiSQL · Internal Tool

- Custom-built admin panel (no framework) for managing domain, hosting, and client records.
- Multi-block entry form system for adding complex records in one go.
- Inline cell editing — update records directly from the table without separate edit page.
- Export functionality: full CSV and PDF export of client and domain data.
- Strict folder separation for clean MVC-style code organisation.

Workopia Job Portal

PHP · MySQL · HTML · CSS · Bootstrap · Practice Project

- Job listing and application management platform built with core PHP.
- Features: user registration and authentication, job posting, application submission, job search and filter.
- Implemented session-based login, form validation, and secure password hashing.

Laravel CRUD Application

Laravel · Blade · MySQL · Bootstrap · Practice Project

- Complete CRUD (Create, Read, Update, Delete) application with Laravel.
- User authentication using Laravel Breeze — login, register, password reset.
- Dynamic data tables with search, pagination, and form validation.
- Clean MVC architecture with proper routing, controllers, and Eloquent ORM.

E-Commerce Clone

JavaScript · HTML5 · CSS3 · Bootstrap · Practice Project

- Responsive e-commerce UI with product listings, filters, and shopping cart functionality.
- Implemented vanilla JavaScript for dynamic cart updates and quantity management.
- Mobile-first design with Bootstrap grid — works on all screen sizes.

Telegram Content Bot

PHP · Groq API · Railway.app · Personal Project

- Automated Telegram bot that posts Hinglish programming content 3 times daily.
- Integrated Groq API (llama-3.3-70b-versatile) for AI-generated educational content.
- Deployed on Railway.app with scheduled cron jobs for automated posting.

TECHNICAL SKILLS

Frontend Development	HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap 5, Responsive Design
Backend Development	PHP (Core + OOP), Laravel Framework, MVC Architecture, REST APIs
Database	MySQL — schema design, joins, stored procedures, query optimization
Version Control	Git, GitHub — branching, pull requests, commit management
Deployment & Servers	cPanel, AaPanel, Linux basics, Composer, npm, SSH
Development Tools	VS Code, Laragon, XAMPP, HeidiSQL, Postman
Other Skills	Role-Based Access Control, Payment Integration, API Integration, Debugging & Troubleshooting

EDUCATION

Bachelor of Computer Applications (BCA)
SGN Khalsa PG College (Shri Guru Nanak Khalsa PG College), Sri Ganganagar

Maharaja Ganga Singh University (MGSU), Bikaner · NAAC Accredited B++

2024 – 2027 (Expected) · Currently in 2nd Year, 4th Semester

Senior Secondary (12th) — Arts Stream
Rajasthan Board (RBSE)

2024 · Percentage: 80%

Secondary (10th)
Rajasthan Board (RBSE)

2022 · Percentage: 50%

CERTIFICATIONS & TRAINING

Full-Stack Web Development Certificate
L2CL CDC Coaching, Sri Ganganagar · 2024–2025

Practical training covering HTML, CSS, JavaScript, PHP, Laravel, React.js, MySQL, Bootstrap

LANGUAGES

Hindi — Native / Mother Tongue
